

An Opportunity to purchase an amazing second user Schelling Cut-to-Size Saw – FL-M 330 330

(picture for illustration purposes only)

TECHNICAL DATA

Saw Blade diameter:	450 mm
Scorer saw blade diameter:	200mm
Projection of saw blade max.:	130 mm
Opening of clamp max.:	130 mm
Max. book height:	100 mm

The maximum actual book height and the saw travel speed depends on the nature and the quality of the material being cut.

Power of main saw motor at 50/60 Hz:	21 kW
--------------------------------------	-------

IMA SCHELLING GROUP

Speed of saw carriage forward: 0.1 – 60
m/min Speed of saw carriage back: 60

m/min

Speed of feeder forward : 25m/min
Speed of feeder back: 32m/min

Dust extraction outlets: 2 x Ø 120 mm
Rip cut saw: 1 x Ø 150 mm

Working height: 970 mm
Overall height: 2400 mm

Noise level:

The noise emission of the machine, measured at the working place in accordance with DIN 45 635 / Part 1659 is below the 85 dB (A) limit while sawing.

The measurement is based on saw blade in normal sharpness, environment noise (such as chip evacuation etc.) is excluded.

Accuracy of Machine

Straightness of cut: ± 0.1 mm at 3m cutting
length Squareness Accuracy: ± 0.1 mm at 1m side
length Dimensional Accuracy: ± 0.1 mm
